

"Europe for me"

For me, Europe is an endless path,
I walk boldly along it.
And my steps preserve the destiny
of our glorious land.

The path connects our homeland
with other distant lands
On the colourful map in the atlas it seems,
together we build a common home.

Europe is for me a warm smile
brightening the new day,
as I find children like me, in Paris, in Vienna as well as in Prague.

I stretch out friendly hands to them,
Unlocking doors unknown
With smiles we remove age-old barriers -
we share common dreams.

Old and young is Europe for me,
I find it in me and in you.
With smiles, with hope, with new friendships
is filled with me every day .
